NOTICE

A Notice of Intent for the following project submitted in accordance with R307-401-1, Utah Administrative Code (UAC), has been received for consideration by the Director:

Company Name: Charlotte Pipe and Foundry Company
Location: Charlotte Pipe and Foundry Company - Plastics Division - Pipe Manufacturing Plant – 1177 North 5300 West, Cedar City, UT

Project Description: Charlotte Pipe and Foundry Company - Plastics Division operates a pipe manufacturing plant (Charlotte). Charlotte has requested an increase in their permitted limits to increase printing on pipes at the plant. Charlotte has also requested more flexibility for their molding machines, allowing PVC and ABS fittings to be produced in the same line. The requested change does not add any new equipment for the facility and will result in an increase in emissions of VOCs and Hazardous air pollutant(s) for the facility.

The completed engineering evaluation and air quality impact analysis showed the proposed project meets the requirements of federal air quality regulations and the State air quality rules. The Director intends to issue an Approval Order pending a 30-day public comment period. The project proposal, estimate of the effect on local air quality and draft Approval Order are available for public inspection and comment at the Utah Division of Air Quality, 195 North 1950 West, Salt Lake City, UT 84116. Written comments received by the Division at this same address on or before June 14, 2023 will be considered in making the final decision on the approval/disapproval of the proposed project. Email comments will also be accepted at dfrederick@utah.gov. If anyone so requests to the Director in writing within 15 days of publication of this notice, a hearing will be held in accordance with R307-401-7, UAC.

Under Section 19-1-301.5, a person who wishes to challenge a Permit Order may only raise an issue or argument during an adjudicatory proceeding that was raised during the public comment period and was supported with sufficient information or documentation to enable the Director to fully consider the substance and significance of the issue.

Date of Notice: May 15, 2023
