## NOTICE

A Notice of Intent for the following project submitted in accordance with R307-401-1, Utah Administrative Code (UAC), has been received for consideration by the Director:

**Company Name:** XCL AssetCo, LLC  
**Location:** XCL AssetCo, LLC - Patry Gas Booster Station – SE Section 31, T12S-R2W, Duchesne County, UT

**Project Description:** XCL AssetCo, LLC has requested a new Approval Order for the natural gas booster station to be located near Roosevelt, Duchesne County. The facility will employ three (3) 1,380-hp natural gas-fueled compressor engines, one (1) natural gas-fueled scrubbing device, two (2) storage tanks, and a flare device.

The natural gas is gathered from several nearby well sites and routed to an inlet scrubber to remove water. The gas is then sent to three (3) natural gas-fueled compression engines. Any liquid condensate from compression will be routed to the storage tanks. Condensate storage tank vapors are routed to a flare for combustion.

The completed engineering evaluation and air quality impact analysis showed the proposed project meets the requirements of federal air quality regulations and the State air quality rules. The Director intends to issue an Approval Order pending a 30-day public comment period. The project proposal, estimate of the effect on local air quality, and draft Approval Order are available for public inspection and comment at the Utah Division of Air Quality, 195 North 1950 West, Salt Lake City, UT 84116. Written comments received by the Division at this same address on or before November 29, 2024, will be considered in making the final decision on the approval/disapproval of the proposed project. Email comments will also be accepted at [tdejulis@utah.gov](mailto:tdejulis@utah.gov). If anyone so requests to the Director in writing within 15 days of publication of this notice, a hearing will be held in accordance with R307-401-7, UAC.

Under Section 19-1-301.5, a person who wishes to challenge a Permit Order may only raise an issue or argument during an adjudicatory proceeding that was raised during the public comment period and was supported with sufficient information or documentation to enable the Director to fully consider the substance and significance of the issue.

**Date of Notice: October 30, 2024**
