RE: Legal Notice of Intent to Approve

This letter will confirm the authorization to publish the attached NOTICE in the Salt Lake Tribune and Deseret News on November 17, 2024.

Please mail the invoice and affidavit of publication to the Utah State Department of Environmental Quality, Division of Air Quality, P.O. Box 144820, Salt Lake City, Utah 84114-4820. If you have any questions, contact Jeree Greenwood, who may be reached at (385) 306-6514.

Sincerely,

Teri Houskeeper
Office Technician

Enclosure

cc: Salt Lake County

NOTICE

A Notice of Intent for the following project submitted in accordance with R307-401-1, Utah Administrative Code (UAC), has been received for consideration by the Director:

Company Name: Novva SLC Common, LLC.
Location: Novva SLC Common, LLC. – 6524 W. Old Bingham Highway, West Jordan, UT
Project Description: Novva has requested to expand power generation at its existing West Jordan Data Center. The source is requesting to install 72 new natural gas-fired IC engines which will power generators providing primary power for the site's two new data center buildings. In addition, a second change was requested under a separate Notice of Intent submitted on May 30, 2024 which covered multiple updates in both the diesel-fired emergency engine generators and diesel storage tanks. The equipment list will be updated to reflect these changes in previously permitted equipment. This project will reclassify the source as a major Carbon monoxide and Hazardous air pollutant(s) source subject to Title V. The source will obtain emission reduction credits in the amount of 47 tpy of NO_x to satisfy the offset requirements of R307-403-5(1)(c). Finally, this project also includes updated modeling based on the equipment changes and some adjustments to stack heights.

The completed engineering evaluation and air quality impact analysis showed the proposed project meets the requirements of federal air quality regulations and the State air quality rules. The Director intends to issue an Approval Order pending a 30-day public comment period. The project proposal, estimate of the effect on local air quality and draft Approval Order are available for public inspection and comment at the Utah Division of Air Quality, 195 North 1950 West, Salt Lake City, UT 84116. Written comments received by the Division at this same address on or before December 17, 2024 will be considered in making the final decision on the approval/disapproval of the proposed project. Email comments will also be accepted at jjenks@utah.gov. If anyone so requests to the Director in writing within 15 days of publication of this notice, a hearing will be held in accordance with R307-401-7, UAC.

Under Section 19-1-301.5, a person who wishes to challenge a Permit Order may only raise an issue or argument during an adjudicatory proceeding that was raised during the public comment period and was supported with sufficient information or documentation to enable the Director to fully consider the substance and significance of the issue.

Date of Notice: November 17, 2024
