NOTICE

A Notice of Intent for the following project submitted in accordance with R307-401-1, Utah Administrative Code (UAC), has been received for consideration by the Director:

Company Name: Utah Pacific Bridge & Steel
Location: Utah Pacific Bridge & Steel- Utah Pacific Steel – 50 North Geneva Road, Lindon, UT
Project Description: Utah Pacific Bridge and Steel (UPBS) is located in Lindon, Utah County. UPBS fabricates steel bridge girders from plate steel and wide flange beams. The plate steel is received on site by rail, where front-end loaders, forklifts, and cranes are used to move the steel during the fabrication process. The plate steel is formed into girders via plasma or oxy-fuel cutting, welding, and sanding. Primers and finish paint coats are applied as specified by the client. The final products are shipped off-site by truck. UPBS applied for a Small Source Exemption, but in the process of calculating the emission estimates, discovered that they do not qualify for a Small Source Exemption. As they do not have a permit, UPBS is applying for an Approval Order.

The completed engineering evaluation and air quality impact analysis showed the proposed project meets the requirements of federal air quality regulations and the State air quality rules. The Director intends to issue an Approval Order pending a 30-day public comment period. The project proposal, estimate of the effect on local air quality and draft Approval Order are available for public inspection and comment at the Utah Division of Air Quality, 195 North 1950 West, Salt Lake City, UT 84116. Written comments received by the Division at this same address on or before March 16, 2025, will be considered in making the final decision on the approval/disapproval of the proposed project. Email comments will also be accepted at kandersen@utah.gov. If anyone so requests to the Director in writing within 15 days of publication of this notice, a hearing will be held in accordance with R307-401-7, UAC.

Under Section 19-1-301.5, a person who wishes to challenge a Permit Order may only raise an issue or argument during an adjudicatory proceeding that was raised during the public comment period and was supported with sufficient information or documentation to enable the Director to fully consider the substance and significance of the issue.

Date of Notice: February 14, 2025
