NOTICE

A Notice of Intent for the following project submitted in accordance with R307-401-1, Utah Administrative Code (UAC), has been received for consideration by the Director:

Company Name: Bryce Christensen Excavating Inc.
Location: Bryce Christensen Excavating Inc.- St. George Aggregate Production Plant – 3270 South Quarry Ridge Drive, St. George, UT
Project Description: Bryce Christensen Excavating, Inc. (BCE), produces construction aggregate in St. George, Washington County. Material is excavated using bulldozers and front-end loaders before being fed through a series of aggregate processing equipment, including three (3) crushers and one (1) screen. Front-end loaders transfer material from storage piles to trucks before the material is delivered to customers. BCE produces up to 400,000 tons of processed aggregate material per year. BCE has applied to change their paved and unpaved haul road lengths, resulting in a small increase in particulate emissions.

The completed engineering evaluation and air quality impact analysis showed the proposed project meets the requirements of federal air quality regulations and the State air quality rules. The Director intends to issue an Approval Order pending a 30-day public comment period. The project proposal, estimate of the effect on local air quality, and draft Approval Order are available for public inspection and comment at the Utah Division of Air Quality, 195 North 1950 West, Salt Lake City, UT 84116. Written comments received by the Division at this same address on or before July 12, 2025, will be considered in making the final decision on the approval/disapproval of the proposed project. Email comments will also be accepted at lbmason@utah.gov. If anyone so requests to the Director in writing within 15 days of publication of this notice, a hearing will be held in accordance with R307-401-7, UAC.

Under Section 19-1-301.5, a person who wishes to challenge a Permit Order may only raise an issue or argument during an adjudicatory proceeding that was raised during the public comment period and was supported with sufficient information or documentation to enable the Director to fully consider the substance and significance of the issue. **Date of Notice: June 12, 2025**
