NOTICE

A Notice of Intent for the following project submitted in accordance with R307-401-1, Utah Administrative Code (UAC), has been received for consideration by the Director:

Company Name: Volition Industries, Inc.

Location: Volition Industries, Inc. - Spanish Fork Data Center – 4000 East Highway 6, Spanish Fork, UT

Project Description: Volition Industries, Inc. has requested an Approval Order for a fuel cell-based power generation facility in Spanish Fork, Utah County. The facility will utilize solid oxide fuel cell (SOFC) technology, which generates electricity through an electrochemical process without combustion. The system converts the chemical energy in fuel directly into electrical energy using a ceramic electrolyte that transports oxygen ions to oxidize fuel at high temperature. The facility will consist of up to 1,210 units, with a combined nameplate generating capacity of 393.25 megawatts (MW) (325 kW per unit).

The completed engineering evaluation and air quality impact analysis showed the proposed project meets the requirements of federal air quality regulations and the State air quality rules. The Director intends to issue an Approval Order pending a 30-day public comment period. The project proposal, estimate of the effect on local air quality, and draft Approval Order are available for public inspection and comment at the Utah Division of Air Quality, 195 North 1950 West, Salt Lake City, UT 84116. Written comments received by the Division at this same address on or before September 5, 2026, will be considered in making the final decision on the approval/disapproval of the proposed project. Email comments will also be accepted at cbodell@utah.gov. If anyone so requests to the Director in writing within 15 days of publication of this notice, a hearing will be held in accordance with R307-401-7, UAC.

Under Section 19-1-301.5, a person who wishes to challenge a Permit Order may only raise an issue or argument during an adjudicatory proceeding that was raised during the public comment period and was supported with sufficient information or documentation to enable the Director to fully consider the substance and significance of the issue. **Date of Notice: August 6, 2026**
